Area were the Adolescent Center
will be. Aug. 13, 2001
Arizona State Hospital

A yellow excavator is the central focus, positioned on a dirt construction site. Its arm is extended, and its bucket is lowered towards the ground. The background features a large, multi-story building under construction, with its skeletal frame visible against a twilight sky. The foreground is a flat, dirt-covered area. The overall scene is illuminated by the warm, orange light of the setting or rising sun.

Starting the foundation work.

A photograph showing the demolition of the Ramada Building. An excavator is visible on the left, working on the structure. The building is a large, multi-story structure with a dark roof. The scene is set against a clear blue sky. A chain-link fence is in the foreground, and a street lamp is visible in the background.
